

**MAKE TODAY AN
EARTH DAY**

www.ontario.ca/wastereduction

Haste makes biomedical waste.

Take time to separate the garbage
from the biomedical waste. A few extra
seconds is all it takes. It's worth it.

DID YOU KNOW? Biomedical waste can cost up to 10 times as much to process as regular waste. Put waste where it belongs and free up that money for more important things – like patient care.
